News Release

Continental Motors Group Provides Continued Support for STEM Education as part of Mobile Aeroplex at Brookley

Mobile, Alabama, June 19, 2018 — Continental Motors Group Ltd. an AVIC International Holding (HK) LTD company (HKEX: 232.HK), announced that it continues to support the Mobile Aeroplex at Brookley STEM Initiative for the second year. This educational program sponsored 36 students to attend the National Flight Academy's six-day Deployment program on June 3, 2018.

The National Flight Academy's adventure began on a virtual aircraft carrier, AMBITION (CVT-11). Students lived aboard for six days, surrounded by advanced technology, flight simulators and virtual reality missions that ignite imagination and encourage learning. The participating students joined other candidates from around the country in cruises of up to 126 individuals fully chaperoned by NFA educators trained to ensure they get the maximum benefits from this unique, fun and innovative learning environment. While aboard, they participated in activities that required the practical use of STEM skills and also gained valuable leadership and teamwork experience.

"Continental Motors and participating partners are committed to the Mobile community and that means investing in our future team members," said Rhett Ross, President and CEO of Continental Motors Group. "This program focuses on providing students with unique hands on experiences with science, technology, engineering and mathematics that will not only shape their career path but potentially change the future of our industry."

Students attending Ben C. Rain High School and the Alabama School of Mathematics and Science both of Mobile, Alabama, applied for the program through a rigorous application process. Students submitted the proper documentation, participated in interviews, and provided multiple references attesting to their character before they were selected to deploy to the NFA. This journey was made possible due to the generosity of The Mobile Aeroplex at Brookley STEM Initiative. 2018 participating sponsors includes Continental Motors, Airbus, VT MAE, Signature Flight Support A BBA Aviation Company, Alabama Power, Carlisle Interconnect Technologies, Hargrove Foundation and MAAS Aviation.

###
